

How to Search for Available Properties

Find a Property:

The “Find Properties” menu allows you to search for available properties and view maps associated with the property. Each tract of land available for licensing is identified by a Recreational License Unit (RLU) number.

Land available for licensing is listed geographically by state and county. If your preferred county is not listed, then we do not currently have any property available for hunting in that county. Note if a state is not listed, we either no longer have properties in that state or we may not offer properties in that state, contact us for clarification in this instance.
